МОДУЛЬНА КОНТРОЛЬНА РОБОТА №1
з дисципліни «Ділова іноземна мова»
Спеціальність: 101 «Екологія»

Variant 1

I. Translate the following text into Ukrainian. Put questions to the underlined sentence:

Conferences serve different purposes than does the printed word. At conferences one often observes intellectual creativity in action, i.e. the formation of the nascent ideas which may not appear in written form for several years. The written word acquires an aura of permanence, and partially formulated ideas or subjects that are not well understood are seldom discussed in this medium. Oral communication is not only more comfortable in such cases; it also invites constructive criticism and informal discussion. Many people feel that conferences are intellectually much more stimulating than the formal papers. Even listening to a discussion of a familiar subject can be educational. When the subject is familiar, the listener can observe the interaction of ideas.

II. Answer the following questions:

1. Why are conferences professionally important?
2. In what way can they help people who share common interests?
3. What programme of social events is offered to the participants and accompanying persons?
4. Where can one see an intellectual creativity in action?

III. Give definitions to the following terms:

Abstract, panel discussion, scientific conferences

IV. Give English equivalents:

Professionally important, relaxed atmosphere, to follow instructions and deadline, electron versions, to concentrate on the development of the material, to observe the interaction of ideas, well-run conferences, intellectual stimulation, accommodation, opportunity, relaxed atmosphere, according to the season, private excursions, on request, passport formalities, cultural interest in, descriptions of places, Organising Committees of scientific forum, so-called travel awards.

V. Change the following sentences using Active Voice instead of Passive:

1. The participants are invited to social activities by Organising Committees.
2. In addition a programme of tours is arranged to enable them to become familiar with the site and the vicinity by Organising Committees.
3. The announcements or circulars with the information on registration are received by participants.
