Variant 1

I. Read the following fragment and summarize the basic reasons to participate in conferences. Which of global IT professional meetings would you like to attend within two years and why?

So here is the thing. There are so many incredibly smart and talented people out of your social circle. You may be really close in terms of values, activity and knowledge, but they live in the different countries and continents and you're rarely even have a chance to know about them. So how do you meet them? Internet and social networks have increased the chances of meeting outstanding and proactive people, but you still need live in-person conversations to make the connection. Social networks both connect and disconnect at the same time.

II. Define the terms:

Conference, convention, seminar, forum.

III. Answer the following questions.

1. What documents are necessary for applying for a job?
2. What pieces of advice can you give to a person who wants to go to a job interview?
3. What are your worst and best qualities?

IV. Think of a specific job you would like to apply for and write your CV. Highlight only your skills and experience relevant for this job.
