МОДУЛЬНА КОНТРОЛЬНА РОБОТА № 1

Major: 125 “Cybersecurity and Information Security”

Subject “Professional Foreign Language”

I. A) Translate the text into Ukrainian.

MALWARE

Malware is malicious software developed to change your settings, delete software, cause errors, watch browsing habits, or open a computer to attacks. Malware can also cause harm by potentially disabling computers. It uses deceptive and unethical tactics to install itself on your computer without your consent. For instance, you may visit a website and receive an unrequested download, and mistakenly run this software on your computer. It may also use vulnerabilities in your operating system or web browser to install itself without requiring you to manually run the software. Malware is commonly found on websites that engage in illegal or questionably legal activities, such as downloading copyrighted videos, music, or software for free. Many of these sites may offer services or download their applications for free. Those services or applications are often infected with malware, which then infects your computer.

B) Choose the correct option.

1. What is the text about?

- a) *It describes different types of malware*
- b) *It lists the ways how malware can penetrate into your computer*
- c) *It explains how to protect your computer from malware*
- d) *It describes various cybercrimes*

2. Which of the following is NOT true about malware?

- a) *It uses vulnerabilities in the operating system of or web browser to infect your computer*
- b) *It can observe your browsing habits*
- c) *It can be found on websites offering to download copyrighted videos, music, or software for free.*
- d) *It installs itself on your computer only with your consent*

II. A) Match the terms with the corresponding descriptions. There are two extra terms you do not need to use.

Desktop	Record	Active cell	Database	Vulnerable
Worm	Password	Cell	Malware	Virus

- a) the current cell in the spreadsheet where you enter information
- b) a unit of information you create in a database
- c) the working area of a computer screen containing icons that typically represent files and programs
- d) a computerized record-keeping system
- e) a harmful program that can replicate itself but does not need to be attached to another type of file.
- f) If a computer system is _____, it is open to attack from things such as computer viruses or hackers.
- g) a code that must be entered to verify identity or gain access to a resource.
- h) the general term for destructive software.

B) Write your sentences with any two terms from A.

III. Answer the questions.

1. What is an operating system? What OS do you use and why? What are its advantages over other operating systems?
2. What are some common types of viruses? How can viruses harm your computer system?

IV. Translate the sentences into English.

1. Інтерфейс – це засіб зручної взаємодії користувача з інформаційною системою. Він поділяється на графічний інтерфейс та інтерфейс командного рядка.
2. Панель завдань спрощує перехід від однієї програми до іншої та відображає системну інформацію.

V. Open the brackets and put the correct verb form of the verb in active or passive voice.

1. Maria phoned you. B: OK. I _____ (to call) her back.
2. This time next week, I _____ (to pass) my exams.
3. The rock concert _____ (to hold) in our town every summer.
4. My bicycle _____ (to steal) yesterday.
5. When Simon _____ (to come) to the cinema yesterday, dozens of people _____ (to queue) outside.
